

Let's Run Away

Kongos

A long year, time was racing
Lost at sea, thousands of faces
Days are different but always the same
Time is just a song that's driving me insane

From Warsaw to Maine to Arkansas
I've never missed you more, never missed you more
Something is lost, it's a game of telephone
When you call, it reminds me I'm never home
My words don't often work, and only for so long
All these days alone, I never wrote a song

First time I saw you, I never thought
I could ever need you more, but I've never missed you more

Let's run away
Always something else to see
We'll fade away, there is nothing I would leave
Let's run away, 'til there's nowhere else where I could be

A long breath, so many wasted
Moments pass, sometimes I make it
But fears are different, but always the same
But all this keeping time, is driving me insane

First time we spoke, you said no more
Cause silence was the word, that never walked before

Another morning, another sleepless night
Thoughts are turning, but I just can't decide
Cause I'm still mourning, the days that turn to night
And I'm still to holding on, to times that passed us by

Let's run away
Always something else to see
We'll fade away, there is nothing I would leave
Let's run away, 'til there's nowhere else that I could be
Let's run away
Fade away
(Let's run away)
(Let's run away)
(Fade away)
