

When You're Here

Kongos

Slow down
Don't move, don't make another sound
A wave is rising up
You gotta hold on to the ground
Be gentle with your touch
It may not come back around
So I say hey now
Is there some place you need to be

Do a dance in the rain
Like a child play a game
It don't matter, it's all the same
When you're here
So I say be wild or be tame
Fall in love, feel some pain
It don't matter it's all the same
When you're here

Hold on
Don't run, don't chase another dawn
The tide is coming in
You're just getting pulled along
And by the time that you begin
All those waves will have come and gone
So I say hey now
Is there some place you'd rather be

Run away and change your name
Like a child play a game
It don't matter, it's all the same
When you're here
So I say be wild or be tame
Fall in love, feel some pain
It don't matter it's all the same
When you're here

So I say be wild or be tame
Fall in love, feel some pain
It don't matter it's all the same
When you're here

So I say be wild or be tame
Fall in love, feel some pain
It don't matter it's all the same
When you're here
