

# Necrosphere

Konkhra

Gaze upon the ozon layer  
This shield we laid to rest  
As we worship only our Gods  
The current and the rent  
Who is to blame  
Your blame, your neighbour  
But you must know  
Some day we loose the earth

Walk the earth  
Walk the earth

Mankind who strive towards the stars  
Challenge the Gods  
But you must know  
They laugh at you  
We step upon our mother  
And she is pissed  
She's fed up with all the crap  
We spilt on her

[Lead Anders/Kim]

We must face the earth  
Mighty opponent  
Global warming, the planet in falmes  
And apparently the seas are dead  
And you must know that the population grows  
Walk the earth with respect.  
Walk the earth  
Walk the earth
