

## Sight For Sore Eyes

Konkhra

I'm a sight for sore eyes  
You can tell how I feel  
If you try to save me  
You'll know it's for real

I flushed it all down the drain  
For a real kind of low  
And I know the highway  
Taught me all I wanted to know

You say I'm just a dog  
And I won't argue on that  
I kinda like them furry beings  
At least they know where joy is at

You say I'm not human  
That too I can't deny  
To me the entire human race  
Are rats in disguise

A sight for sore eyes

But I made something of myself  
I can stay in the open  
Never told a lie twice  
To me that's a real token

So when it's time to say goodbye  
And travel beyond  
I'll wear my happy face  
So you remember me when I'm gone

A sight for sore eyes  
A sight for sore eyes  
A sight for sore eyes
