

# Depend On You

Konshens

I lose control when I'm alone  
And am not with you  
I don't know what to do girl  
Am addicted to you  
Am not a shame to say I need you  
Am not independent, cause my love depends on you

I need you, girl you are my life  
I wanna make you my wife  
I love your sexy style  
And I get speechless when you smile

Girl you are my heart  
And I know that your my soul  
And when your not around  
I lose control

I need you, girl the way you are  
Sexy way you talk  
You make my heart beat faster  
As I hold you in my arms  
And when you come around  
All walls come tumbling sown  
You lift me up each time am feeling down
