

## Missing You

Konshens

Even when you working all the time  
When you lose a good girl  
You can't get her off your mind

Even if you get a million girl fi whine  
When you lose a good girl  
You can't get her off your mind

So you better treat her  
Like the queen that she is  
Like she is your only girl  
And the love is the realest

Once she turn and go away  
You gonna be the one to say  
I and I need you girl  
I need you girl

Mi try everything fi get over  
A nuh like seh no gyal nuh want mi  
Woman a run mi down and a follow back a mi  
And mi deh pon the hustle everyday a look the money  
But as soon as the moment done  
And the whole crowd gone  
Even though my hands let go  
Ma heart still holding on
