

On The Run

Kontrust

All I have - all I possess and all I want is on my back
Never ever and forever I would stop and leave my track
You try to get, to get, to come to, to get on the throne
I can do the same without the cash, can do the same alone

Live life
Live loud
With one another
I am - I am on the run
Run on - sto-stop it now
Leave it all - leave it undone
I am - I am on the run

I keep on walking through the world
At all the nights, and all day long
Sometimes I think it's time to think about the things going wrong
You have to set, to set, it's time for you to set to work
I think the one who pleads for settling down here is a jerk

Live live
Live loud
With one another
I am - I am on the run
Run on - sto-stop it now
Leave it all - leave it undone
I am - I am on the run

Live live
Live loud
With one another
I am - I am on the run
Run on - sto-stop it now
Leave it all - leave it undone
I am - I am on the run

Live loud
With one another
I am - I am on the run
