

# Personal Rotation

Kontrust

I close my eyes - don't know what will be  
Every night - I dream that I am free  
Watching lonely TV - but there's nothing to see  
Nobody with me, I loose belief suddenly  
In my head there's a hole I drink too much alcohol  
My thoughts make me ill - I need a break

Get up - wanna get a bit closer  
Get up - wanna get a bit closer  
Get up - wanna get a bit closer  
I dreamed the night away  
One step - one got a bit closer  
One closer to the day  
Get up - wanna get a bit closer  
I dreamed the night away  
One step - Do you feel a bit closer?  
One closer to your fate?  
Flying high - breaking limits - breaking times  
Night minds - forever floating thru the skies

I close my eyes - don't know what will be  
I'm searching for God - every night in my thoughts  
I break up with life, don't tell me how to survive  
Nothin makes sense, cause I loose confidence  
My thoughts make me ill - I need a break  
Show me another way  
Goodness of the contemplation  
Dance, keep the dance  
Of the personal rotation

Get up - wanna get a bit closer  
I dreamed the night away  
One step - one got a bit closer  
One closer to the day  
Get up - wanna get a bit closer  
I dreamed the night away  
One step - Do you feel a bit closer?  
One closer to your fate?  
Flying high - breaking limits - breaking times  
Night minds - forever floating thru the skies

Get out! - Get out! - Free one!  
They wanna get a get a  
Get out! - Get out! - become!  
She wanna seek - wanna kinda new mind, know no confines  
Drop all the hate you felt for so many times  
Only want to stay alive - I'll stay alive  
I gotta fight this time - don't really wanna fail  
Stay alive - don't really wanna fail - stay alive  
Can't you can't you see?

Get up - wanna get a bit closer  
I dreamed the night away  
One step - one got a bit closer  
One closer to the day  
Get up - wanna get a bit closer  
I dreamed the night away

One step - Do you feel a bit closer?  
One closer to your fate?  
Flying high - breaking limits - breaking times  
Night minds - forever floating thru the skies
