

# Play With Fire

Kontrust

Foresee da mix - consider you brake in  
Get is what you take away  
Around - around - around the clock  
Together more better  
More better the day's income  
Bring the calm  
Bring income da cop is under way  
Hit the road - Down the road - town patrol - is under way  
Cop - cop - cops are on their way  
When everybody robs  
Whenever we're caving in  
When everybody burns  
The bridges and tries to flee  
When everyone is thrilled

We only do this for fun  
We take away  
We take away  
We take away from anyone  
I play with fire  
I take a last look back  
We're starting to attack  
I burn like fire  
I play with fire  
I love an evil man  
I love his evil plan  
I play with fire

Around - around - around the clock  
Get is what you take away  
Around - around - around the clock  
Together more better  
More better the day's income  
Bring the calm  
Bring income da cop is under way  
Hit the road - Down the road - town patrol - is under way  
Cop - cop - cops are on their way  
Whenever we imagine  
That we both can feel safe  
We start to give away  
And squander the easy prey  
Whenever we strike back

We only do this for fun  
We take away  
We take away  
We take away from anyone  
I play with fire  
I take a last look back  
We're starting to attack  
I burn like fire  
I play with fire  
I love an evil man  
I love his evil plan  
I play with fire
