

rock to outer space

Kontrast

I heard somebody built a spaceship
For the wild and the free
I bought a one way, never looked back
The future will be
A new beginning, this world's ending
Say goodbye to everything
Long live humanity

Hold on, maximum speed
Onward to a new destiny
Hold on, maximum speed

Let's rock to outer space
Leave this behind
Let's find a perfect place
Leave this behind
Let's rock to outer space
Leave this behind
Let's find a perfect place

Time to escape the devastation
That the world has sustained
I'll live my new life on this station
In search of the chain
That links together this forever
Changing existential
Calling to supremacy

Hold on, maximum speed
Onward to a new destiny
Hold on, maximum speed
Welcome to your new legacy

Let's rock to outer space
Leave this behind
Let's find a perfect place
Leave this behind
Let's rock to outer space
Leave this behind
Let's find a perfect place, the place, our place

Let's leave it all behind
Rock into outer space
Let's open up our minds
And find the perfect place
Let's leave it all behind
Rock into outer space
Let's open up our minds, our minds

Hold on, hold on, hold on
What if on the other side there's nothing left to live for?
Hold on, hold on, hold on
What if on the other side there's nothing left to live for?
Hold on, hold on, hold on
What if on the other side there's nothing left to live for?
Hold on, hold on, hold on
What if on the other side there's nothing left to live for?

Let's rock to outer space
Leave this behind
Let's find a perfect place
Leave this behind
Let's rock to outer space
Leave this behind
Let's find a perfect place, the place, our place

Let's leave it all behind
Rock into outer space
Let's open up our minds
And find the perfect place
Let's leave it all behind
Rock into outer space
Let's open up our minds, our minds
