

Shut Up

Kontrast

Shut up, shut up!
Shut up, shut up!
Shut up, shut up!

I don't believe in misery, therapy, on what you say
Don't tell me I lose energy
And that you are my remedy

We have to check your sanity please lie down and talk with me
You can't - I can't - we can't - can't delay, must check it rapidly

Shut up, shut up - get out this is my fight
Shut up, shut up - I scream get another life
Why don't you just shut up?
Go fuck with another life

Shut up, shut up - forget what I said before
I'm fucked up - fucked up - I can't stand it anymore
Why don't you just shut up?
Just shut up!

You want to talk of fantasy, and the dreams that come to me
Fells like a tragic comedy, comedy, comedy

I can't believe you honestly buy tapestries of tragedy
You can't - we can't - I can't - can't deny your case has urgency

Lay down now
Close your eyes
Don't care
Slow down now
Don't fight
Let it go - No!

Shut up, shut up - get out this is my fight
Shut up, shut up - I scream get another life
Why don't you just shut up?
Go fuck with another life

Shut up, shut up - forget what I said before
I'm fucked up - fucked up - I can't stand it anymore
Why don't you just shut up?
Just shut up!

Shut me up - shut me up
But I'm all that you've got
Shut me up - shut me up - shut me up
You say scared but I'm not

Lay down now
Close your eyes
Don't care
Slow down now
Don't fight
Let it go

Lay down now

Close your eyes
Don't care
Slow down now
Don't fight
Let it go - No!

Shut up, shut up - get out this is my fight
Shut up, shut up - I scream get another life
Why don't you just shut up?
Go fuck with another life

Shut up, shut up - forget what I said before
I'm fucked up - fucked up - I can't stand it anymore
Why don't you just shut up?
Just shut up!

Shut up, shut up
Shut up, shut up
I'm fucked up - fucked up
Why don't you just shut up?
Shut up!
