

One forbidden touch
And one drink too much
Different skin I felt
My possessions melt
Oh don't regret this kiss
Such a short-time bliss
Man I need much more

Nothing will be like before
Will I stand right here forever?
In the middle of nowhere
Talk to me - should I stay or will you leave?
Talk to me - I think of her but you don't think of me

Moments passing by
Hands are touching shy
Take a sip of wine
Don't regret this time
I look back and wait
Everything was straight
Now I loose control

Nothing will be like before
I'm standing here forever
I'm feeling you nowhere
Talk to me - talk to me - should I stay or will you leave?
Talk to me - talk to me - I think of her but you don't think of
me

I'm standing here forever
I'm standing here forever
Talk to me - talk to me - I can't share you - you don't belong
to me
Talk to me - talk to me - don't replace me with a memory
Talk to me - Take my hand
Talk to me - talk to me - should I stay or will you leave?
