

## the end

Kontrust

Straight into armageddon  
Stratosphere kill phenomenon  
Straight into armageddon  
Stratosphere death phenomenon, woah woah  
Straight into armageddon  
Stratosphere kill phenomenon  
Straight into armageddon  
Stratosphere death phenomenon  
This is the end  
Over and out

This is the end, there's no doubt  
No one here's gonna get out  
So stand up and shout  
This is the end, there's no doubt  
No one here's gonna get out  
So stand up and shout

Straight into armageddon  
Stratosphere kill phenomenon  
Straight into armageddon  
Stratosphere death phenomenon, woah woah  
Straight into armageddon  
Stratosphere kill phenomenon  
Straight into armageddon  
Stratosphere death phenomenon  
This is the end  
Over and out

This is the end, there's no doubt  
No one here's gonna get out  
So stand up and shout  
This is the end, there's no doubt  
No one here's gonna get out  
So stand up and shout (it's over and out, it's over and out)  
This is the day where everything falls apart

This could be the best final day of us all  
This would be the best final rise before we fall  
This could be the final goodbye, my friend  
Before the end, before the end  
Before the end, before the end  
Before the end

This is the end, there's no doubt  
No one here's gonna get out  
So stand up and shout (it's over and out, it's over and out)  
This is the end, there's no doubt  
No one here's gonna get out  
So stand up and shout (it's over and out, it's over and out)  
This is the day where everything falls apart  
No more run (it's over and out, it's over and out)
