

# Vienna

Kontrast

La la la la la la la

The sun is heading down down  
The sky is falling down down  
The deepest night is right ahead  
Your dark days make me sad  
I'm walking downtown  
I gotta tear my town down  
The cities' lights above my head  
I go right now - now

Vienna's calling - calling

Far from rising - far from rising up  
Far from rising - Vienna's calling us  
I hear you call - I got your call  
U keep me going - going  
Far from rising - far from rising up  
Far from rising - Vienna's calling us  
I hear you call - I got your call  
You keep me going - going

Your sons reclaim their playground  
Your daughters come around - round  
Your deepest night is right ahead  
Your dark hours drive me mad  
I'm walking downtown  
Got to feel you right now

Vienna's calling - calling

Far from rising - far from rising up  
Far from rising - Vienna's calling us  
I hear you call - I got your call  
You keep me going - going  
Far from rising - far from rising up  
Far from rising - Vienna's calling us  
I hear you call - I got your call  
You keep me going - going

La la la la la la la la la la

You keep me going - going

Far from rising - far from rising up  
Far from rising - Vienna's calling us  
I hear you call - I got your call  
You keep me going - going  
Far from rising - far from rising up  
Far from rising - Vienna's calling us  
I hear you call - I got your call  
You keep me going - going

Far from rising - far from rising up  
Far from rising - Vienna's calling us  
I hear you call - I got your call  
You keep me going - going

Far from rising - far from rising up
