Kontrust

You can't give me more than I - I wanted from you
You just tell me all these cold words, your lie's getting true
You see more inside of me than I wanted to show
You can't give me more than I need - don't want you to go
See the past, see the past, see the past see that everything's broken
It's over and out
Keepin' next, keepin' next, keepin' next, keeping everyone next to me - shut them out!

Can you find out
I can't find out
Why are tears droppin loud
I'm frozen without you
Can you find out
I can't find out
Why silence surrounds
I'm frozen without you

Left me in the moonlight tonight, I am fading like a rose
You would never be a part of me now
Can you stop talking - Can you stop talking
Give up, give up - stop shedding tears just break with me
Cause I can not find out - forgive, but my love's running out
See the past, see the past, see the past see that everything's broken
It's over and out
Keepin' next, keepin' next, keepin' next, keeping everyone next
Eyoh, E-eyoh, E-e-eyoh, E-eyoh

Can you find out
I can't find out
Why are tears droppin loud
I'm frozen without you
Can you find out
I can't find out
Why silence surrounds
I'm frozen without you

Eyoh, E-eyoh, E-e-eyoh, E-eyoh
Don't you find a reason?
I could try - but I want forget it!
Don't you find a reason?
There's one - no doubt about it!
Steppin on the brake
I can't say yes, when I should say no
Steppin on the brake
From time to time I'm crashing

Can you find out
I can't find out
Why are tears droppin loud
I'm frozen without you
Can you find out
I can't find out
Why silence surrounds
I'm frozen without you

Can you find out

I can't find out
Why are tears droppin' loud
I'm frozen without you
I can not find out
You'll never find out
To lose means to live
I'm better without you
