

All the Time

The Kooks

Why don't you stay here? I wanna spend some time
Why don't you lay here? Make the full moon cry
Why don't you love me the way I want you to?
You cut up the best dress I ever bought for you

But you don't have to doubt or figure me out
Let me show you the way it's gonna be
You don't have to doubt what it's all about
See the light that leads you here, we can find a way

I want you to be there all the time
I want you to be there when I die
I want you, you, just don't ask why
I want you, you, all the time
I want you

Your scent brings me flowers, your heart, it brings me wine
All of these hours, I wanna do that time
Your love is such hardship, but work I'm pleased to do
And my back is breaking, fire I'll walk through

You don't have to doubt or figure it out
See the light that leads you here, we can find a way

I want you to be there all the time
I want you to be there when I die
I want you, you, just don't ask why
I want you, you, all the time
I want you

We don't need the seas to separate
No regret
See the storm in you against your own
Cigarette

And you don't have to doubt what it's all about
Darkness coming down, night is all around

I want you to be there all the time
I want you to be there when I die
I want you, you, just don't ask why
I want you, you, all the time
I want you to be there all the time
I want you to be there when I die
I want you, you, just don't ask why
I want you, you, all the time
I want you
