

## Compass Will Fracture

The Kooks

Waking up with a thought in my head  
It's been a long time since I left you for dead  
Lions waiting for me every day  
I'm trying hard to find all the wrong ways to stay  
Two fingers in the air, skies are on the inside  
Once you know you could never go back

Oh, where will I find my mind this time?  
It was written in the books I've read but  
No one really knows what love is

There's a pretty picture in my head  
I'm rolling the dice from underneath my bed  
Two fingers up in the air  
Baby's got an answer for why we all disappear  
Give me one, give me mother nature  
Left is so right, the compass will fracture

Oh, where will I find my mind this time?  
It was written in the books I've read but  
No one really knows what love is  
It was written in the books I've read but  
No one really knows what love is

It was written in the books I've read but  
No one really knows what love is
