

Got Your Number

The Kooks

So you thought you could live without me
Now you're living in the dark
How do you spend your nighttime
In a city with no stars
Yeah time is runnin' out now
You're t-, t-t-, t-tickin' like the clock
Sittin' there cold and lonely
Love to you was just a spark

But baby in the nighttime
When I find the right time
To think about it
When I think about it

I-I-I
I'll be lovin' you
So long girl
And I-I-I
I'll be lovin' you
For so long girl

I don't know where I'm goin'
I don't know what I'll do
You know I got your name girl
Got your number too

You came to see the band playin'
Your lips slowed every word
You're wearin' crystals round your neck now
You're speakin' [?]
You got lemons on an arrow
You're feelin' c-caged and paranoid
Yes I couldn't live without you
But I say welcome to the void

But baby in the nighttime
When I find the right time
To think about it
When I think about it

I-I-I
I'll be lovin' you
So long girl
And I-I-I
I'll be lovin' you
For so long girl

I don't know where I'm goin'
I don't know what I'll do
You know I got your name girl
Got your number too

I-I-I
I'll be lovin' you
So long girl
And I-I-I
I'll be lovin' you

For so long girl

I-I-I

I'll be lovin' you

So long girl

And I-I-I

I'll be lovin' you

For so long girl

I don't know where I'm goin'

I don't know what I'll do

You know I got your name girl

Got your number too
