

Keep Your Head Up

The Kooks

Remember the trees, remember the animals doing what they please
Remember making love in the garden, thank you please
Remember the green grass, remember the time passing slowly
Remember we were so true, we were so true

So always keep your head up, your head up
So always keep your head up, your head up
So always keep your head up, your head up
So always keep your head up, your head up

Remember shadows, on the path to the lake
When we would take our time, talking and drinking wine
Remember walking, with nowhere to go
Remember living in silence, just a look to know

So always keep your head up, your head up
So always keep your head up, your head up
So always keep your head up, your head up
So always keep your head up, your head up
