

Let It Go

The Kooks

I didn't get it, didn't come across oblivion
My little girl, she's flies only to let me go

She was convoluted
Couldn't think, she said over the phone
And I was distracted
As I put my fingers up, hold her hand

Let it go, let it go, let it go
Let it all be gold
Let it go, let it go, let it go
Let it all be gold
Let it go, let it go, let it go
Let it all be gold
Let it go, let it go, let it go
Let it all be gold
Yeah-yeah

I didn't get it, didn't come across on the TV show
I didn't care one set that I have, my heart just froze

She was convoluted
All the things she said over the phone
And I was distracted
As I put my fingers up, hold her hand

Let it go, let it go, let it go
Let it all be gold
Let it go, let it go, let it go
Let it all be gold
Let it go, let it go, let it go
Let it all be gold
Let it go, let it go, let it go
Let it all be gold

If you want to turn me on
Well I'm your radio, radio
But if you want to turn me on
Well I'm your radio, radio
Well if you want to turn me on
I've got a radio, radio
Yes if you want to turn me on

Let it go, let it go, let it go
Let it all be gold
Let it go, let it go, let it go
Let it all be gold
Let it go, let it go, let it go
Let it all be gold
Let it go, let it go, let it go
Let it all be gold
