

Lonely Cat

The Kooks

Life is simple if you've got faith
Oh yeah
You don't have to choose
But I don't go numb today
Life was easy yesteryear
Oh yeah
I didn't have to move
But I never even got to know you
So baby, carry on in charge
Because I'm a full grown lonely cat in the world
Without you beating by my side

Out of the dark get your uncorrupted air
And into the light, you, you need not prepare
Because I know you'll keep on traveling 'til you make your way
back home
I'll try to take care of your home

Patch my life up with cellotape
It doesn't feel so safe
But all the same, I don't have to choose
How sad baby, is that?
Because I'm a full grown lonely cat in the world
Without you beating by my side

And out of the dark get your uncorrupted air
And into the light, you, you need not prepare
Because I know you'll keep on traveling 'til you find your way
back home
I'll try to take care of your home
