

Never Know

The Kooks

Nothing's ever set in stone
You're not like anyone that I've met before
You win by not playing the game
The times are changing but you stay the same

Let's turn around the hourglass
Freeze it in a photograph
I'll tell you everything I used to hide
'Cause I don't wanna waste your time
Let's do all the things we wanna do

Because you never know, never know, never know
When it's gonna stop
Never know, never know, never know
When it's gonna stop

So let's go, pack up the car
Drive to the south of France
The wind is dancing in your hair
Singing "Je ne, regrette rien"

Can't take the money when it's time to go
So let's blow it like we're movie stars
Think of all the places we can go

Because you never know, never know, never know
Where it's gonna stop
Never know, never know, never know
Where it's gonna stop

Because you never know, never know, never know
When it's gonna stop
Never know, never know, never know
When it's gonna stop
Never know, never know, never know
When it's gonna stop
Never know, never know, never know
When it's gonna stop

Can't take the money when it's time to go
So let's blow it like we're movie stars
Think of all the places we can go

Because you never know, never know, never know
When it's gonna stop
Never know, never know, never know
When it's gonna stop
Never know, never know, never know
When it's gonna stop
Never know, never know, never know
