

# No Pressure

The Kooks

Fell in love with the summer  
But I'm just blowing in the wind  
Fell in love with the darkness  
The truth is hanging in the night  
Hanging in the night, oh oh

We're just having a good time, honey  
No need to apply no pressure  
We're just having a good time

Darling, you give me shelter  
From the noise that drowns out the love  
And I want to discover  
All the things that make you come alive  
All the things that make you come alive, oh oh

We're just having a good time, honey  
No need to apply no pressure  
We're just having a good time, honey  
No need to apply no pressure  
We're just having a good time, oh oh

The truth is hanging in the night, oh oh

We're just having a good time, honey  
No need to apply no pressure  
We're just having a good time, honey  
No need to apply no pressure  
We're just having such a good time, oh oh

We're just having a good time, honey  
No need to apply no pressure  
We're just having a good time, honey  
No need to apply no pressure  
We're just having such a good time, oh oh

We're having a good time, honey  
No need to apply no pressure  
We're just having a good time, honey  
No need to apply no pressure  
We're just having a good time, honey  
No need to apply no pressure  
We're just having a good time
