

Oasis

The Kooks

You make me see things I never thought were possible
I feel free, I feel so irresponsible
Dancing in the mirror, look at what a state I'm in
How can I be the one to take you home

Because you make this place feel like an oasis
Yeah, you put the smile on all of these faces

Sitting in a daze, I never felt comfortable
I'm insecure, but you make it achievable
Close the door, walking up the walls
Fall into my eyes
Only you can get me through the night

Because you make this place feel like an oasis
Yeah, you put the smile on all of these faces
Yeah, you put the smile on all of the-, all of these, all of these faces
Yeah, you put the smile on all of the-, all of these, all of these faces
