

Sweet Emotion

The Kooks

She's the woman that's on your mind
She's a woman who takes her time
She's the woman that's on your mind
She's a woman who takes her time

Yes, I feel sweet emotion
Every time you're near me
Every time you are near
I said I feel sweet emotion
Every time you're near me
Every time you are near

So sweet

I said I feel sweet emotion
Every time you're near me
Every time you are near
And I feel like your creation
Every time you're near me
Every time you are near

Cause she's the woman that's on my mind
She's the woman who takes my time
She's the woman that's on my mind
She's the woman that's on my mind

I said I feel sweet emotion
Every time you're near me
Every time you are near
And I feel sweet sensation
Every time you're near me
Every time you are near

Uh oh oh

And I feel vibrations
What are your expectations?
Baby I don't have no fear

(I feel sweet emotions...)
Cause she's the woman that's on my mind
She's a woman who takes my time
She's the woman that's on my mind
She's the woman that's on my mind

Yes, I feel sweet emotion
Every time you're near me
Every time you are near
And I feel sweet sensation
Every time you're near me
Every time you are near

I said I feel sweet emotion
Every time you're near me
Every time you are near
Excuse me if I seem audacious
But you're just so flirtatious

And I just need you here

Uh oh oh
