Swing Low

The Kooks

I've been lost, locked up and shot
I'm never gonna let them win, never going down again
My soul colder than stone
Underdog chewing a bone

I, I've been waiting
I, I've been waiting
Swing low

And I'm bound, tied to the sound
Of the drum pushing me on
Come on show me where to go
Carry me home, swing low

I, I've been waiting
I, I've been waiting
Swing low

So let's go
You and me, we got to go
I follow you wherever you go
I follow you wherever you want to go
Wherever you want to go

I've been lost, locked up and shot
I'm never gonna let them win, never going down again
Come on show me where to go
Carry me home, swing low
