

All She Wants to Do Is Dance

Kool & The Gang

Hey, Kool, get busy!
Whoo!

The very moment I saw her
I knew that she was the one
For no one else could really move me
You know the girl has got me all turned on
I finally asked her
If she would like to get on the floor
Then maybe later, we could get in something right
I said, "what you wanna stay here for?"

She said, "I'm sorry, baby, but I gotta dance
I don't want no, no romance"

All she wants to do is dance
That's all she wants to do
The little girl wants to dance
All she wants to do is dance
That's all she wants to do
Yeah, yeah

You know I finally got her, mmm...
To come on over to my place
After a long, long night at the party
I figured then we could slow down the pace

You know we laid down by the fireplace
Everything was goin' right for sure
Then all of a sudden, my baby jumped up to me
She swore that she heard a word
You know, she said, "I'm sorry, baby
But I gotta dance
I don't want no little romance, baby"

All she wants to do is dance
That's all she wants to do
The little girl
Little girl wants to dance, baby
All she wants to do is dance
Dance, dance, baby
That's all she wants to do
Oh, no

Hey, K, get with it!

Hey, Kool, get busy!

All she wants to do is dance
Ooh, all she wants to do
Is dance with me, with you
All she wants to do is dance
That's all she wants to do
Yeah, baby
The little girl wants to dance...
