

Bang Bang With The Gang

Kool & The Gang

Gonna spread a little love tonight
It's alright, party all night
All our friends just came to party
Bang, bang with the gang
Blow your whistle now

Party all night, party all night

Come on people, gonna show you how we rock
Come on people, gonna show you what we got
Come on people, gonna show you how we rock
Blow your whistle now
Come on people, gonna show you what we got

Get up on your feet
People, get up outta them seats
People get up on your feet
And party all night

Just came to party
Bang, bang with the gang
Just came to party
Bang, bang with the gang

Gonna spread a little love tonight
It's alright, party all night
All our friends just came to party
Bang, bang with the gang
Blow your whistle now

Just came to party
Bang, bang with the gang
Just came to party
Bang, bang with the gang

Just came to party
Bang, bang with the gang
Just came to party
Bang, bang with the gang

Just came to party
Bang, bang with the gang
Just came to party
Bang, bang with the gang

Just came to party
Bang, bang with the gang
Just came to party
Bang, bang with the gang
