

# Love Festival

Kool & The Gang

Come on, baby, come on

(Dance)

You'll be dancin', everyone's romancin'

Come on, baby, come on

(Dance)

You'll be dancin', everyone's romancin'

Baby, it's so good to see you

Did you bring your friends

Ladies, I'm so glad to greet ya

Now the fun begins

Because we're havin' a party

We're gonna dance and groove all night

Rhythm working through your body

Who makes you move and groove 'em all night

Come on, baby, come on to the love festival

We will dance and groove all night

Come on baby, come on to the love festival

We're gonna party till the morning light

Come to the love festival, baby, come on

(There'll be joy and love's delight, yeah)

Come to the love festival, baby, come on

(There'll be fun because the mood is right)

Love festival, love festival, love festival tonight

Wanna see you

(Dance)

You'll be dancin', everyone's romancin'

Come on, baby, come on

(Dance)

You'll be dancin', everyone's romancin'

Baby, feels so good to be here

Are you havin' fun
