

# My Search Is Over

Kool & The Gang

Ooh-ooh-ooh-ooh...

Oh-oh-oh-oh...

Now we find each other  
In a search that never ends  
All I wanted was a lover  
But in you I find a friend  
How'd we find that someone  
In a world that's so untrue  
I'm so glad my search is over  
For I found true love in you  
Oh, yes, I have

You had given up on  
All the finding other men  
One that wasn't playing games with love  
And one who could understand  
The mysteries of a woman  
And the things you all go through  
But my search is finally over  
For I found true love in you

My search is over  
For I finally found true love  
My search is over  
You're the one I've waited on  
And when I hold half the peace inside  
My heart makes me know that, ooh...  
I found true love in you  
Oh-oh-oh-oh-oh...

Think of all the changes  
That our search for love can take us through  
Whoa, I know lately I traveled  
Down the road that led me to you, yeah  
Now my search is over  
And I know just what to do  
I'm gonna hold you tight  
I'm gonna spend the rest of my life with you  
With you, you, you, you, you

My search is over  
For I finally found true love  
My search is over  
Let us stay together from now on

My search is over  
For I finally found true love  
My search is over  
You're the one I've waited on  
And when I hold half the peace inside  
My heart makes me know that, ooh...  
I found true love in you  
Found true love in you

I don't want nobody else  
To satisfy myself I found in you

Oh, I found true love in you
