

# Unite

## Kool & The Gang

In order to win the fight  
To make things right  
We all must unite  
In order to win the fight  
To make things right  
We all must unite

Years ago, our doors were locked  
A nation undivided and people traveled free  
Farmers and fishermen, we all live as one  
Had one destiny and everybody knew we lived in peace

Come together, all nations, with no boundaries  
Let's make our two as whole  
And let's not forget the sound of gunfire  
Our time has come, a new day has begun  
Before our work is done, we all must become one  
Yeah, yeah

In order to win the fight  
To make things right  
We all must unite  
We all must unite, yeah, yeah  
In order to win the fight  
We all must unite

We are family  
Let's not be divided by the countries we live in  
This, our country  
Let's do it for our children and our nations, yeah

Out in this great big sun there's only one type of people  
South, north, east, west, we're all created equal  
Let's drop our differences, war, let's end it  
By living in peace and harmony like God intended  
What's more for, somebody needs to ask it  
To see that the only cure is in a pine box casket  
If that's the case, then we can kiss goodbye the human race  
What's it gonna be like when our babies are growin' up  
Chaos, mayhem, the little world blowin' up  
We oughta make that change  
Before the world's rearranged with war and bloodstains  
Embrace me, brother, with all your might  
Come together as one, we must unite, Kool and the Gang  
We gotta get together if we wanna win the fight

Come together, all nations, with no boundaries  
Let's make our two as whole  
And let's not forget the sound of gunfire  
Our time has come, a new day has begun  
Before our work is done, we all must become one

We are family  
Let's not be divided by the countries we live in  
This, our country  
Let's do it for our children and our nations

Ooh-ooh-ooh...

Oh...

Oh, yeah

We are one nation under the sun

Yeah, yeah, yeah

We all are one people

One people under the sun

We all are one nation

One nation under the sun

Yeah, yeah, yeah

We gotta be together, everybody

Oh, yeah, oh, yeah

We are one nation under the sun, yeah

We all are one people

(Tell me what it is, what it is)

(What it is, yeah)

One people under the sun

(We all must unite, yeah)

We all are one nation

(Oh, yeah)

One nation under the sun

(One people, one nation)

(One people, one nation)

We all are one people

(Oh, everybody, yeah)

One people under the sun

(We must unite, oh, we must unite)

(Yeah, yeah)

We all are one nation

(We've got to live as one)

One nation under the sun

(Nations undivided, people all are free, yeah...)
