

Let's Elope

Koop

Let's elope today
We'll find a secret hideaway
Summer's here to stay
Leaves will fall on another day
Another day

There's a place I know
We can go where the cops won't show
For this land we pray
Leaves will fall on another day

Youth has gone now
I hear you say
But it doesn't matter anyway
I'll cook the dinners
If you bring the wine
Youth has gone now
But we still shine

Let's elope today
We'll find a secret hideaway
Summer's here to stay
Leaves will fall on another day

Youth has gone now
I hear you say
But it doesn't matter anyway
I'll cook the dinners
If you bring the wine
Youth has gone now
But we still shine

Let's elope today
