Hey, Summer Sun
You always smile
Clouds in the sky
You never mind
Happy or sad
You always shine
Never before
I've met your kind

Love had never got a hold on me Until you stepped out of a dream My life once a misery Now your love has set me free

Hey, Summer Sun Your love's divine Never before I've met your kind And now you're mine

Hey, Summer Sun
You always smile
Clouds in the sky
You never mind
Happy or sad
You always shine
Never before
I've met your kind

Love had never got a hold on me Until you stepped out of a dream My life once a misery Now your love has set me free

Hey, Summer Sun Your love's divine Never before I've met your kind And now you're mine
