

## Waltz for Koop

**Koop**

We never seem to find peace of mind  
We're always on the run away from the sun  
And we've only just begin.

You say we've overcome nothing is wrong  
You say our job is done the battle is won  
But we've only just begun.

You say our job is done the battle is won  
But we've only just begun.
