

Appears

Korn

Cracked phone line
Means nothing
My brain's in fights and vain
My breathing
So shallow
It helps to curb the pain
What's outside?
Sneaks inside
How we contaminate
This warzone of my soul
I underestimate

I've never really thought about it that much
It's only ever violence that's in my touch
Appears, appears, appears
I am built this way
Appears, appears, appears
I am built this way

The pills they, quit working
They take more than they give
Emotions on flat line
It's all that I can give
The rising
The falling
My mind keeps tricking me
It throws me a life raft
Then leaves me out at sea

I've never really thought about it that much
It's only ever violence that's in my touch
Appears, appears, appears
I am built this way
Appears, appears, appears
I am built this way

I've never really thought about it that much
It's only ever violence that's in my touch
Appears, appears, appears
I am built this way
Appears, appears, appears
I am built this way
