

## Haze

Korn

Walking alone inside my world  
Thinking I'm doing the right thing  
Destroying all that appears before me  
It was all done, in vein

Wanna get through fire  
Wanna get through pain  
Wanna get with violence  
Wanna get with shame

Taking this place to call my own  
Raping my body without a face  
Torching my soul as black as pitch  
And I have no life to waste

Wanna get through fire  
Wanna get through pain  
Wanna get with violence  
Wanna get with shame

(I worshipped you  
Do anything  
So lost and helpless  
I played your game)

I worshipped you (I worshipped you)  
Do anything (Do anything)  
So lost and helpless (So lost and helpless)  
I PLAYED YOUR GAME!

Wanna get through fire  
Wanna get through pain  
Wanna get with violence  
Wanna get with shame
