

I Can't Feel

Korn

Looking back, a space and time
When I was good and life was fine
Then something wrapped its claws around me
Building up a silent rage
This thing has locked me in a cage
And it has left me without the key

I can't feel
Is this even real

Pushing back, my heart is gone
This thing has robbed me, can't go wrong
So what's the point, all hope has left me
Feeling we cry all the time
And nothing changes, life goes on
And sadly this is always with me

I can't feel
Is this even real
On and on, I tumble down
Mass diffusion all around
Cuz I can't feel

I've gone
So long
I tried so hard to overcome
No pain
No shame
I tried to feel this hatred building inside
This lie
I dread the day I wake up and nothing's the same
Insane
I'll feel the demons dancing all up in my head

I can't feel
Is this even real
On and on, I tumble down
Mass diffusion all around
Cuz I can't feel
