

# Play Me

Korn

[Nas:]

Everybody's an Enemy  
telling me lies and it's killing me  
why they all want to get rid of me  
Everybody's my enemy  
Several try to disguise the devil in them  
Wanting to get into my cerebellum but I'm  
Ready and willing to tell them that I can't f with them  
Exhale so hard it got my chest swelling  
like my dick does when watching nikkid women  
do sick stuff on my porn collection on television

[Nas:]

Trust nobody  
I don't know who to call a friend  
they all just pretend to be  
Fuck Everybody this is to all of ya'll  
cuz everybody is an enemy [2x]

[Nas:]

Watching my own back  
strapped in chrome, to my homies  
where the tombstones at, where the hoes at?  
Cuz to many didn't act like dikes, hermaphrodites  
with benzene, amen  
Look at the trash they biting  
The life in times is kinda weaker  
like the time and life of the sandman  
on Apollo theater  
imagine that another black with a hook  
who pulls the wack talent off the stage  
I'm enraged

[Nas:]

Trust nobody  
I don't know who to call a friend  
they all just pretend to be  
Fuck Everybody this is to all of ya'll  
cuz everybody is an enemy [2x]

[JD:]

You fill your lies around me  
and you think you've won  
You feel you can control me  
with the things you've done

[JD:]

You think that you can take me  
you think that you can play me  
you're going to start to hate me  
I feel that you disgraced me [5x]

[Nas:]

Trust nobody  
I don't know who to call a friend  
they all just pretend to be  
Fuck Everybody this is to all of ya'll

cuz everybody is an enemy [2x]
