

When You're Not There

Korn

It's a pretty little way to hold your head
It's like a sanity is hanging on a thread
The flesh is cold and needs a nails
And the look you give, it never fails

I love the way you hurt me
I love that you don't care
My love is dark and twisted
And I scream when you're not there

It's the interesting way to piss my brain
...never the same
I love it when you are heavy and crack a smile
The best is when make it last a while

I love the way you hurt me
I love that you don't care
My love is dark and twisted
And I scream when you're not there

OH!
OH!
Can't seem to get away
This ghost i will never find
It haunts me 'til this day
I can't get back my mind

I love the way you hurt me
I love that you don't care
My love is dark and twisted
And I scream when you're not there
