

# Live 4 Today

Kosheen

I've looked and I've found  
Keep your feet on the ground  
Every moment's precious  
See me wild and free  
I now what I wanna be  
Live for every second

Eyes wide, look don't hide  
Nobody be denied

Everybody's special  
Time flies, be a child  
Life's a big adventure, ride  
Live for every second

It's up to you if you won't live for today  
Can you  
Its up to you if you don't come out to play  
Can you

And if you don't slow down  
You're gonna fall  
If you try to close your eyes you're gonna miss it all  
No time to rectify  
I've had time to realise  
You gotta take each moment

See me wild and free  
I know what I wanna be  
Every moment's precious  
Time flies be a child  
Life's a new adventure, ride  
Live for every second

It's up to you if you won't live for today  
Can you  
Its up to you if you don't come out to play  
Can you  
It's up to you if you won't live for today  
Can you  
Its up to you if you don't come out to play  
Can you  
It's up to you if you won't live for today  
Can you  
Its up to you if you don't come out to play  
Can you
