

Wasting My Time

Kosheen

That's what he said
Clever when you talk
Pretty when you sleep
Started seeing red
Give it all away
Too precious to keep
Don't make any doubt
That you can undo
Don't be surprised
If I don't talk to you
Don't be wasting our time
You've been lying before
You've been trying to get out
We've been climbing the walls

Tearing it out
I'm under your skin
Bows in your eyes
Murder on gin
You hide inside
But I'm coming in
It isn't over if we never begin

Don't be wasting our time
You've been lying before
You've been trying to get out
We've been climbing the walls

(Don't be wasting my time)
(Don't be wasting my time)
(Wasting my time)
(Wasting my time)

Stop being denied
Was divinely yours
Left your hands untied
And finally walked
You can stand by my side
I'll cover the course
The winner's gain
And the loser's lost

Don't be wasting our time
You've been lying before
You've been trying to get out
We've been climbing the walls
