

# Red Lights

KOTA The Friend

I'ma come through  
Winter in the hood and I wanna be there with you  
What you wanna do?  
Sittin' in the crib, I could be there 'bout around two  
What we got to lose?  
Hoppin' in a cab, on the way, I'ma get some food  
Give me good news  
Kick it on the couch with the sweats on, play a good tune  
All them girls in New York be so damn fine, there ain't nothin' like (You)  
All them girls in LA make a nigga say, "Woo," there ain't nothin' like (You)  
We don't gotta go outside in the cold, I could stay for another night  
Hold you close, I'ma never let go, I'ma take this slow like

Let's just stay in the crib all day  
Curl up by the fireplace  
Just us, that's a fire day  
Let's just not try today  
Let's just get high today  
Said let's just sit here, live all day  
End up in a higher place  
That stress gon' fly away  
Don't pay it no mind today  
This love gon' find a way  
I said yo

Vibes on a hundred and I got it if you want it, if you really wanna get right  
t  
Call my phone, I'm already on the road, I be hoppin' in the Benz like  
Snow day, in it for the whole day, laid up, you know how we get like  
Thing so good I be doin' one-ten, got me goin' through the red lights

I got free time  
These days, I been doin' more me time  
Feel good when it's comin' onto we time  
Snow day, said she wanna do tea time  
Chardonnay, I don't pull up with the cheap wine  
Nice place and the whole block tree-lined  
Don't come from the money, but she live good  
Don't trip for the cash and I see why, yeah  
She a five-star chick  
Lookin' for a five-star nigga, that's it  
Never been the type in the club all night  
Tryna give it up quick to a nigga that's rich  
Look your way and I love the view  
And this thing right here, I would love to do  
And I'll be right there when the seasons change  
Young love, gotta seize the day  
In the meantime

Let's just stay in the crib all day  
Curl up by the fireplace  
Just us, that's a fire day  
Let's just not try today  
Let's just get high today  
Said let's just sit here, live all day  
End up in a higher place  
That stress gon' fly away

Don't pay it no mind today
