

Super 8

KOTA The Friend

Want you to know something
Don't wanna handle my sad songs
Hard breaks and hard days
What about the good times
What about love

Baby I'm thinking maybe
If you knew me
You'd never lose me
Let's have it all
Let's do a new thing
Let's see the world
Let's make a movie

Six out flight imma see you tonight
Don't say a word 'cause I know what you like
Stay on your toes 'cause you know I'm the type to say
Get dressed in the middle of the night
We could make love in the Malibu hills okay
Shoot it on a super eight film okay
Stressed out imma make you feel okay
Throw another movie on the reel okay
Take a chance with me
Might find you a fan if you dance with me
We can go for a walk hold hands with me
Shit soon you 'gon wanna make bands with me
And imma be there before you
You don't ever gotta be scared I'm for you
You don't ever gotta beware I don't share don't care to be shared
I'm right here

Dance for the super eight film yeah
Girl let's get it on camera
This just feels so real yeah
Hold on girl so scandalous
You know how I feel yeah
