

# The Way

KOTA The Friend

Live my life the way I wanna  
Do my thang the way I wanna  
Live my life the way I wanna

Mumma told me I'm already rich  
You don't gotta struggle mentally over the petty shit  
A lot of people acting like they tryna win the emmy  
But you always keep a smile and they love you cause you genuine  
Got that lil Kota  
Catch me on a podcast  
To true for most  
Everyday I be a combat  
You just spent my last 10 dollars on a dom bag  
Now I'm dropping gems  
Bout to take this shit beyond that  
High school dreams told you all about the Peace Corp  
Told me that they rape another land for the resource  
All about the money in the country where you free  
Or you dying in the street by the hands of the police  
Ain't nothing more ironic than an African marine  
On the frontline fighting for the capital regime  
Livin' in the system full of demons  
I be lookin to the heavens  
Tryna figure out a reason  
But I never do

Live my life the way I wanna  
Do my thang the I wanna  
Live my life the way I wanna  
The way I want to

Live my life the way I wanna  
Do my thang the I wanna  
Live my life the way I wanna  
The way I want to

Lil Kota on the [?]  
Picking up the pimur  
Laying off the gray goos  
Legend in the making  
Everybody better make room  
Real or fake [?]  
I just hope he like hey shoes  
Lil boy showing him the way  
That's the real joy  
Gotta see the bigger picture  
Hotter than the film noise  
Hoping he don't see tryna raise him as a killjoy  
When he being bad gotta take away his lil toys  
Lil fool welcome to the earth  
Now the lot makes sense  
And its getting worse

But I beleive in you  
And I be watching as you seek the truth  
I never had a lot of faith  
But I got a lot of faith in you

I got faith that you could break news  
And imma shoot em down quick  
If they ever try to aim at you  
So you could focus on the things that you came to do, uh
