Kottonmouth Kings

Ya know I got 2 states of mind, stoned and asleep
First I hit the sweetleaf, and then I have nice dreams
When I get up, I wake and bake, take a piss and shake
My clock stopped at Four-twenty, what you want me to say
I stay blazed all day, no matter where I'm creepin'
Hot boxing on your block, and at the spot on the weekends
You'll see smoke risin', Just who could it be
It's my rhyme and crime partner, D. dash L. O. C.

Yeah that be me born and raised in the suburbs.
Faded off the bud smoke blowing it at you nerds thanks Johnny Richter for yo

I got some purple Kush
Did you bring the sand box?
Let's bounce some bud so we can make a little Keefe
Spice up the leaf before we smoke the tree
Everybody in the scene
Know we blow the most dosha
That way they label up the Kottonmouth solders.

You'll catch me at the Smoke-Out smoked out, dropping drinks
Having a blast, not giving a fuck, doing my thing
Blowing rings through the crowd, being loud and obnoxious
Now the shots I did with Pak got me feelin' kind of nauseous
But I played it cool and pulled a few snapps
Big fat packed bowls, and had a chicken Caesar wrap
Dipping through the whole place, no where else I'd rather be
Then smokin' weed with my peeps, now I pass it to D.
