

## Day Dreamin Fazes

Kottonmouth Kings

Daydreamin' fazes, time goes by  
That's what happens when you get high  
Head's always cloudy, words is lies  
Daydreamin' fazes, I.S.I.

Daydreamin' fazes, time goes by  
That's what happens when you get high  
Head's always cloudy, words is lies  
Daydreamin' fazes, I.S.I.

Daydreamin' fazes, life elevated  
Chillin' in the back of the bus getting faded  
I blaze all hell with my dogs all day  
Feelin' the rage with the blunt on stage

Too many knuckle heads fuckin' with my business  
Soakin' up my 'fluence can I get a witness  
Seven days deep in a smoked out haze  
D-Loc rolled the T, Daddy X is in a daze

Smoke don't fight it, I watch your eyes  
Surrounded by abuse and our boy is getting high  
Presidential lies, keep on wondering why  
We got the sound that you can't deny

Daydreamin' fazes, time goes by  
That's what happens when you get high  
Head's always cloudy, words is lies  
Daydreamin' fazes, I.S.I.

Lost in the world of distrust and greed, there's no time to blink,  
So we plant our seeds, got no time to think  
Always do what's real, speak what we feel, and pass the bill  
You know, shit still ain't changed, Richter got game  
Need to try and contain from the truth and refrain  
If you don't know I'ma let it be known, I be in the penetration zone  
That's some whole other shit, and I hold my own  
D-Loc's the kinda kid with the bomb homegrown

Daydreamin' fazes, time goes by  
That's what happens when you get high  
Head's always cloudy, words is lies  
Daydreamin' fazes, I.S.I

Daydreamin' fazes, time goes by

Head's always cloudy, words is lies  
Daydreamin' fazes, I.S.I.

What a long strange trip it's been  
Sippin' life from a 40 ounce bottle of sin  
Daydreamin' fazes walls caving in  
What a long strange trip it's been

Life goes fast, like a blunt it don't last  
Like flash to the past on the porch outside  
Thinkin' of old times, sittin' around gettin' high

Daydreamin' fazes, time goes by

Anything you got we gonna put it to the test  
Any strain, it's all the same  
Call me the deep cess profess,  
In the (??) high as fuck, amazing blacklights (??)  
D-Loc and Johnny Richter straight BSO!

Daydreamin' fazes, time goes by  
That's what happens when you get high  
Head's always cloudy, words is lies  
Daydreamin' fazes, I.S.I.
