

Good As Gold

Kottonmouth Kings

I Snapped A Load, Watch It Glow Glow Glow,
Looks So Fruity Sittin' In My Bowl,
Thanks To Mary, Jane Is My Bro,
Glow Baby, Glow Baby, Grow Baby, Glow...

If you ask me how I'm living my reply is I'm so,
Smoked out without a doubt,
I keep a constant flow of indo smoke pouring out my lungs,
And you can strip to find a stash on the tip of my tongue,
Marijuana runnin' through my veins,
God's great gift comes in different strains,
From the mainland pumps all the way to big island,
Underground cultivation,
Yes I try to stay blasted from to sea to sea,
And I've also been known to plant seed after seed,
Seven points on my flag when it's blowing in the wind,
Prop 215 so let the games begin,
Smoke as much as you want, Johnny Richter's everlastin',
We be packin' sacks and ? we are blastin',
Your plants don't grow in that bud that be glowin',
The words you have to ask or the people never know it,

Yo, I can barely breathe, I need to kick a verse,
The smoke's on my mind it's getting on my nerves,
Observe don't wanna look at my lungs,
Shriveled like an old peach pear plum,
Nicotine I'd rather smoke some green,
What does it take, and why do I feind,
If I conquer this kick, I'd be crowned king,
Wasting my money four bucks a pack,
Going out of my way for some dirt sticks at that,
It's gonna be crap, I'm all up out of wack but I'm rowdy uh,
I need to buy a patch the dirty little camel is makin' me weeze,
I'll go around to the castle where there's bong and weed,

I need to take a shit, got no time to think,
There's a zong by the toilet, and some bud on the sink,

I knew a real stoner named D-Loc,
Never went to sleep,
Smoked weed till the sun broke,
Up all night with his pipe puffin' indo,
Evaporated ?? like dilapidated ozone,
Sack after sack after sack, now he's flat broke,
About to get faded take a toke while the tape rolls,
Kottonmouth Kings write rhymes on hemp scrolls,
Daddy X don't smoke and it don't don't don't don't,

Save the best of the best when pack it in the vest,
You know the THC content you will never guess,
Unless you invest we can put it to the test,
There's no stress for the cest we all about the next test,
Tentanation now our minds spun,
We in a whole new place, lowered the lights,
Bud stickin' ? fruit taste sticky,
Nuttin' but dank, number one rank,
No need to rush sippin' buds by the crops,
Those little red rocks in the hydroponic box,
To keep the plants kissin' we got a drip system,
Electronical device liquid dyes,
????? and beautiful kolas,
One puff you clueless to all you rookie smokers,
??? stun, relation was won,
We love to see our plants lookin' pretty in the sun,
