

# Lets Do Drugs

**Kottonmouth Kings**

the following program is sponsored by the national pharmaceutical association sideeffects may include dizziness nausea memory loss increased apatite rainbow vision the ability to levitate and of course cotton mouth lets do drugs lets do some drugs together lets do drugs lets do some drugs together together together together together together (yeaaaa) if i do drugs and you do drugs lets do drugs together cause doing drugs by yourself is fun but with friends its so much better lets do drugs lets do some drugs together lets do drugs lets do some drugs together (yeaaaaaa) hey there kids heres a fun song grab your glass bongs and come singing along dirt-ball brought some mushroom tea we got vicodin, peracet and extacy big-B got a eight ball a yea yo one more thing i forgot to say yo these drugs got a bad reputation unless you r the one who decides to takeâ
