

Summertime

Kottonmouth Kings

Out of all the guys that approach me
Walking up to me like they know me
You were the one that stayed aside
Waited a while and took your time
You don't know how impressing
Your curiosity was to me
It was the fourth day of July
Looked in my eyes and saw that I

I wanted more than just a man
I needed a friend
Someone I can talk to, someone who really listens
When you touched my hand, the sun got brighter then
Trusting you, I closed my eyes and felt our love begin

It was the summertime
When we fell in love, it was the summertime
Heaven shined on us; it was the summertime
Baby, there is nothing like the summertime
Summertime

Now it's been a year and we're closer
Fall in love again when I hold ya
I know that God set you aside for me
And now you are my prize
Wanna grow old with'cha
And fill our house with your pictures
Have a son for you
A little girl for me
Together we'll raise a family

Baby, you're more than just a man
You are my best friend
Someone I can talk to, someone who really listens
When you touched my hand, the sun got brighter then
Trusting you, I closed my eyes and felt our love begin

It was the summertime
When we fell in love, it was the summertime
Heaven shined on us; it was the summertime
Baby, there is nothing like the summertime
Summertime

It was the summertime
When we fell in love, it was the summertime
Heaven shined on us; it was the summertime
Baby, there is nothing like the summertime
Summertime
