

# Change

Koven.

If you wanna talk I listen  
But if you don't I'll put your hand in mine and keep you compan  
y  
Uncover the pieces missing  
Follow the light that guides you on your way and leads you back  
to me

We're gonna ride the fire  
Dancing within the flames  
As long as we feel alive  
We can cope with the pain  
What means the most to you?  
Why do you need to run?  
You'll have the path to choose  
When all is said and done

Change, change is gonna come  
Life is what you make it, nothing here is sacred  
Change, change is gonna come  
Life is what you make it, nothing here is sacred

When the weight of the world is heavy  
No you're not the only one to ever see a darker place  
I'll be there when you're ready  
To guide you through the storm and help you till you see your b  
righter days

We're gonna ride the fire  
Dancing within the flames  
As long as we feel alive  
We can cope with the pain  
What means the most to you?  
Why do you need to run?  
You'll have the path to choose  
When all is said and done

Change, change is gonna come  
Life is what you make it, nothing here is sacred  
Change, change is gonna come  
Life is what you make it, nothing here is sacred

(Change, change is gonna come)

Change, change is gonna come  
Life is what you make it, nothing here is sacred  
Change, change is gonna come  
Life is what you make it, nothing here is sacred
